Crimson & Grey-hound Cocktail Recipe

Ingredients

1.5 oz(1 shot)of your favorite Vodka

3.0 oz of White Grapefruit Juice

10ml(2 tsp)of Grenadine

Seltzer Water

Ice

Instructions

In a 6oz clear glass(or larger) combine theVodka and White Grapefruit Juice.

Then feel this glass with ice.

AddSeltzer(or not)to your liking. I enjoy a bit of bubbles in mine.

Stir with a cocktail spoon or swizzle stick.

Draw of 10ml of of Grenadine into a 12ml syringe with an extension set attached. I choose Jack Rudy Cocktail Co. Grenadine because it actually has pomegranate in it and not just flavored sugar water.

Insert the tip of the extension set into the cocktail so that it rests on the bottom.

Slowly infuse the Grenadine into the bottom of the glass to produce a beautiful crimson layer.

While enjoying your cocktail, occasionally swirl the glass to gradually mix the Grenadine in. If not, you will be startled by the sudden sweetness when you get down to the crimson layer.

Go Cougs!!
